

Yarram Early Learning Water Safety Policy

Quality Area 2: Children's health and safety

Quality Area 3: Physical environment

PURPOSE

This policy outlines the procedures that apply to managing water safety, including safety during any water-based activities at Yarram Early Learning Incorporated.

POLICY STATEMENT

VALUES

The Yarram Early Learning Incorporated is committed to:

- Providing opportunities for children to explore their natural environment including through water play
- Ensuring that children are protected from the risks associated with drowning or non-fatal drowning experiences
- Ensuring that curriculum planning incorporates water safety awareness
- Providing information to staff, parents/guardians, volunteers and others at the service about water safety.

SCOPE

This policy applies to the Approved Provider, Responsible Person, Nominated Supervisor, staff, students on placement, volunteers, parents/guardians, children and others attending the programs and activities of Yarram Early Learning.

BACKGROUND AND LEGISLATION

Background

The supervision and safety of children with and around water is of paramount importance.

Water in the Learning Environment

Learning spaces and environments should offer an array of possibilities and connect children with natural materials. Water is one experience that offers children sensory-rich, open-ended experiences that engage children's curiosity and imagination. Children may encounter these resources in the service environment and/or when on excursions. These experiences, especially those conducted with and near water, will be carefully supervised ensuring the safety of children and adults.

(NQS.A2.Supervision)

Water Safety

Water safety relates to access to water in the building, the playground or on excursions, and also to the availability of drinking water for children. It is imperative that staff remain vigilant in their supervision of children in and around water, and are alert to potential risks in everyday practice in the learning environment. Knowledge of potential hazards associated with water will assist staff to provide a safe, stimulating environment for preschool children.

Drowning is one of the leading causes of death in children 0-4 years of age. Data from the Australian Bureau of Statistics shows that drowning is the number one cause of death in one-, two- and three-year-old children (ABS 2019).

For every toddler drowning death approximately eight children are admitted to hospital as a result of non-fatal drowning. Non-fatal drowning incidents can result in permanent brain damage and disability. Drowning hazards include large bodies of water such as swimming pools, rivers, creeks, dams and ponds. Smaller bodies of water, including nappy buckets, water containers, pet water bowls and poor drainage which allows water to collect can also present drowning hazards for young children. Children can drown in as little as a few centimetres of water.

Yarram Early Learning is guided by the Keep Watch program of Royal Life Saving Society – Australia, that is aimed at preventing the drowning deaths of children under 5 years of age in all aquatic locations. The program has four key actions:

- **Supervise** children constantly around water
- **Restrict access** to water hazards by using child-proof barriers and fences
- **Water awareness** training to children
- **Resuscitation** saves lives – ensure that Educators have completed current first aid training.

When implemented together, these safety measures can help to maximise child safety around water.

LEGISLATION AND STANDARDS

Relevant legislation and standards include but are not limited to:

- *Child Wellbeing and Safety Act 2005 (Vic) (Part 2: Principles for Children)*
- *Education and Care Services National Law Act 2010: Section 167*
- *Education and Care Services National Regulations 2011: Regulations 101 (2), 168(2) (a) (iii)*
- *National Quality Standard, Quality Area 2: Children's Health and Safety*
- Standard 2.2 Each child is protected
2.2.1: At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazard.

DEFINITIONS

The terms defined in this section relate specifically to this policy. For commonly used terms e.g. Approved Provider, Nominated Supervisor, Regulatory Authority etc. refer to the *General Definitions* section of this manual.

Adequate supervision: (In relation to this policy) **supervision** entails all children (individuals and groups) in all areas of the service, being in sight and/or hearing of an staff member at all times including during toileting, sleep, rest and transition routines. Services are required to comply with the legislative requirements for educator-to-child ratios at all times. Supervision contributes to protecting children from hazards that may emerge in play, including hazards created by the equipment used. Adequate Supervision refers to constant, active and diligent supervision of every child at the service.

Adequate supervision requires that staff are always in a position to observe each child, respond to individual needs, and immediately intervene if necessary. Variables affecting supervision levels include:

- Number, age and abilities of children
- Number and positioning of staff
- Current activity of each child
- Areas in which the children are engaged in an activity (visibility and accessibility)
- Developmental profile of each child and of the group of children
- Experience, knowledge and skill of each staff
- Need for staff to move between areas (effective communication strategies).

Approved first aid qualification: A list of approved first aid qualifications, anaphylaxis management and emergency asthma management training is published on the ACECQA website: www.acecqa.gov.au

Hazard: A source or situation with a potential for harm in terms of human injury or ill health, damage to property, damage to the environment or a combination of these.

Notifiable incident: An incident involving workplace health and safety that is required by law to be reported to WorkSafe Victoria. Notification is required for incidents that result in death or serious injury/illness, or dangerous occurrences. For a complete list of incidents that must be reported to WorkSafe Victoria, refer to the *Guide to Incident Notification* on the WorkSafe Victoria website: www.worksafe.vic.gov.au

Serious incident: An incident resulting in the death of a child, or an injury, trauma or illness for which the attention of a registered medical practitioner, emergency services or hospital is sought or should have been sought. This also includes an incident in which a child appears to be missing, cannot be accounted for, is removed from the service in contravention of the regulations or is mistakenly locked in/out of the service premises (Regulation 12). A serious incident should be documented in an *Incident, Injury, Trauma and Illness Record* (sample form available on the ACECQA website) as soon as possible and within 24 hours of the incident. The Regulatory Authority (DEECD) must be notified within 24 hours of a serious incident occurring at the service (Regulation 176(2)(a)). Records are required to be retained for the periods specified in Regulation 183.

Water hazard: (in relation to this policy) can lead to drowning or non-fatal drowning incidences. Drowning hazards include large bodies of water such as swimming pools, rivers, creeks, dams and ponds. Smaller bodies of water, including nappy buckets, water containers, pet water bowls and poor drainage, which allows water to collect, can also present drowning hazards for young children.

SERVICE POLICIES

- *Administration of First Aid Policy*

- *Emergency and Evacuation Policy*
- *Excursions and Incursion Policy*
- *Nutrition, Oral Health and Active Play Policy*
- *Incident, Injury, Trauma and Illness Policy*
- *Occupational Health and Safety Policy*
- *Supervision of Children Policy*

PROCEDURES

Approved Provider and Nominated Supervisor are responsible for:

- Ensuring that children are adequately supervised (refer to *Definitions*) at all times when near water hazards (refer to *Definitions*)
- Ensuring that educator-to-child ratios are maintained at all times (*Education and Care Services National Law Act 2010: Sections 169(1)&(3), Education and Care Services National Regulations 2011: Regulations 123, 355, 357, 360*)
- Conducting a risk assessment in relation to any water hazards on or near the premises that may be accessible to children
- Ensuring permission is obtained from parents/guardians for an excursion to a location where there is a water hazard (refer to *Excursions and Incursion Policy*) ensuring that water hazards and risks associated with water-based activities are considered in a risk assessment prior to conducting excursions and other offsite events (Regulation 101)
- Ensuring increased levels of supervision for an excursion to a location where there is a water hazard (refer to *Supervision of Children Policy*)
- Conducting a regular safety check of the service premises (refer to *Occupational Health and Safety Policy*)
- Ensuring any water hazards that are not able to be adequately supervised at all times are isolated from children by a child-resistant barrier or fence (particularly large bodies of water including swimming pools, rivers, ponds etc.)
- Ensuring that a staff member with a current approved first aid qualification (refer to *Definitions*) is in attendance and immediately available at all times children are being educated and cared for by the service (Regulation 136)
- Ensuring that details of current approved first aid qualifications (refer to *Definitions*) are filed with each staff member's record
- Reporting serious incidents (refer to *Definitions*) to DET
- Reporting notifiable incidents (refer to *Definitions*) to Worksafe Victoria
- Ensuring that water safety awareness is embedded in the curriculum
- Providing current information to parents about water safety.

Nominated Supervisor and Responsible Person are responsible for:

- Assisting the Approved Provider to implement the *Water Safety Policy*
- Ensuring parents/guardians are informed of the *Water Safety Policy* on enrolment
- Ensuring permission is obtained from parents/guardians for an excursion to a location where there is a water hazard (refer to *Excursions and Incursion Policy*)
- Ensuring information on water safety (refer to *Sources*) is incorporated into the educational program
- Ensuring that children are adequately supervised (refer to *Definitions*) and protected from hazards and harm at all times

- Ensuring that water hazards and risks associated with water-based activities are considered in a risk assessment prior to conducting excursions and other offsite events (Regulations 100, 101)
- Ensuring permission is obtained from parents/guardians for an excursion to a location where there is a water hazard (refer to *Excursions and Incursion Policy*)
- Ensuring increased levels of supervision for an excursion to a location where there is a water hazard (refer to *Supervision of Children Policy*)
- Ensuring that a staff member with a current approved first aid qualification (refer to *Definitions*) is in attendance and immediately available at all times children are being educated and cared for by the service
- Ensuring that all staff members current approved first aid qualifications meet the requirements of the National Regulations and are approved by ACECQA (refer to *Administration of First Aid Policy*)
- Informing the Approved Provider immediately if any serious or notifiable incidents (refer to *Definitions*) occur at the service.
- **The Supervisors and relevant Room Leader are responsible for ensuring volunteers and students are following this policy and the outlines procedures.**

Educators and staff are responsible for:

- Providing adequate supervision (refer to *Definitions*) at all times
- Undertaking a risk assessment prior to an excursion to a location where there is a significant water hazard (refer to *Excursions and Incursion Policy*)
- Adjusting supervision strategies to suit the activities being undertaken (refer to *Supervision of Children Policy*)
- Obtaining parental permission for an excursion to a location where there is a water hazard (refer to *Excursions and Incursion Policy*)
- Maintaining a current approved first aid qualification (refer to *Definitions*)
- Ensuring gates and other barriers restricting access to water hazards are closed at all times and that fences are kept clear at all times
- Ensuring that containers of water (including nappy buckets and cleaning buckets) are sealed with child-proof lids
- Ensuring wading/paddling pools, water play containers and portable water courses are emptied immediately after each use and stored in a manner that prevents the collection of water when not in use
- Checking the outdoor learning environment at the beginning and end of each day for puddles or filled containers that could pose a potential risk to small children after heavy rain
- Providing water safety education as a part of the service's program
- Informing the Approved Provider immediately if any serious or notifiable incidents (refer to *Definitions*) occur at the service.

Parents/guardians are responsible for:

- Supervising children in their care, including siblings, while attending or assisting at the service
- Ensuring that doors, gates and barriers, including playground gates, are closed after entry or exit to prevent access to water hazards
- Informing themselves about water safety
- Ensuring their children understand the risks associated with water
- Recognising when resuscitation is required and obtaining assistance

- Considering undertaking approved first aid qualifications, as resuscitation skills save lives.

EVALUATION

In order to assess whether the values and purposes of the policy have been achieved, the Approved Provider will:

- Regularly seek feedback from staff, parents/guardians, children, management and all affected by the policy regarding its effectiveness
- Monitor the implementation, compliance, complaints and incidents in relation to this policy
- Keep the policy up to date with current legislation, research, policy and best practice
- Revise the policy and procedures as part of the service's policy review cycle, or as required
- Notify parents/guardians at least 14 days before making any change to this policy or its procedures.

AUTHORISATION

This policy was adopted by Yarram Early Learning Incorporated in June 2020
