BACKGROUND AND LEGISLATION

Background

Supervision is essential in ensuring that children's safety is protected in the service environment. Supervision is an integral part of the care and education of children and requires staff members to make ongoing assessments of the child and the activities in which they are engaged. Active supervision assists in the development of positive relationships between staff, children and their families, and informs ongoing assessment and future planning. Adequate supervision requires teamwork and good communication between staff.

Legislation and standards

Relevant legislation and standards include but are not limited to:

- *Education and Care Services National Law Act 2010*: Sections 165, 167, 169, 174
- *Education and Care Services National Regulations 2011*: Regulations 101, 168, 176
- *National Quality Standard*, Quality Area 2: Children's Health and Safety

- *Occupational Health and Safety Act 2004*

DEFINITIONS

The terms defined in this section relate specifically to this policy. For commonly used terms e.g. Approved Provider, Nominated Supervisor, Regulatory Authority etc. refer to the *General Definitions* section of this manual.

Adequate supervision: (In relation to this policy) **supervision** entails all children (individuals and groups) in all areas of the service, being in sight and/or hearing of a staff member at all times including during toileting, sleep, rest and transition routines. Services are required to comply with the legislative requirements for educator-to-child ratios at all times. Supervision contributes to protecting children from hazards that may emerge in play, including hazards created by the equipment used. Adequate supervision refers to constant, active and diligent supervision of every child at the service. Adequate supervision requires that staff are always in a position to observe each child, respond to individual needs, and immediately intervene if necessary. Variables affecting supervision levels include:

- Number, age and abilities of children
- Number and positioning of staff
- Current activity of each child
- Areas in which the children are engaged in an activity (visibility and accessibility)
- Developmental profile of each child and of the group of children
- Experience, knowledge and skill of each staff
- Need for staff to move between areas (effective communication strategies).

Attendance Record: Kept by the service to record details of each child attending the service including name, time of arrival and departure, signature of person delivering and collecting the child or of the Nominated Supervisor or staff (Regulation 158(1)).

Duty of care: A common law concept that refers to the responsibilities of organisations to provide people with an adequate level of protection against harm and all reasonable foreseeable risk of injury.

Hazard: A source or situation with a potential for harm in terms of human injury or ill health, damage to property, damage to the environment or a combination of these.

Incident, Injury, Trauma and Illness Record: Contains details of any incident, injury, trauma or illness that occurs while the child is being educated and cared for by the service. Any incident, injury, trauma or illness must be recorded as soon as is practicable but not later than 24 hours after the occurrence. Details required include the:

- Name and age of the child
- Circumstances leading to the incident, injury, trauma or illness (including any symptoms)
- Time and date
- Details of action taken by the service including any medication administered, first aid provided or
- Medical personnel contacted
- Details of any witnesses

- Names of any person the service notified or attempted to notify, and the time and date of this
- Signature of the person making the entry, and time and date of this.

These details need to be kept for the period of time specified in Regulation 183. A sample *Incident, Injury, Trauma and Illness Record* is available on the ACECQA website.

Notifiable incident: An incident involving workplace health and safety that is required by law to be reported to WorkSafe Victoria. Notification is required for incidents that result in death or serious injury/illness, or dangerous occurrences. For a complete list of incidents that must be reported to WorkSafe Victoria, refer to the *Guide to Incident Notification* on the WorkSafe Victoria website: www.worksafe.vic.gov.au

Serious incident: An incident resulting in the death of a child, or an injury, trauma or illness for which the attention of a registered medical practitioner, emergency services or hospital is sought or should have been sought. This also includes an incident in which a child appears to be missing, cannot be accounted for, is removed from the service in contravention of the regulations or is mistakenly locked in/out of the service premises (Regulation 12). A serious incident should be documented in an *Incident, Injury, Trauma and Illness Record* (sample form available on the ACECQA website) as soon as possible and within 24 hours of the incident. The Regulatory Authority (DET) must be notified within 24 hours of a serious incident occurring at the service (Regulation 176(2)(a)). Records are required to be retained for the periods specified in Regulation 183.
